# Web Engineering
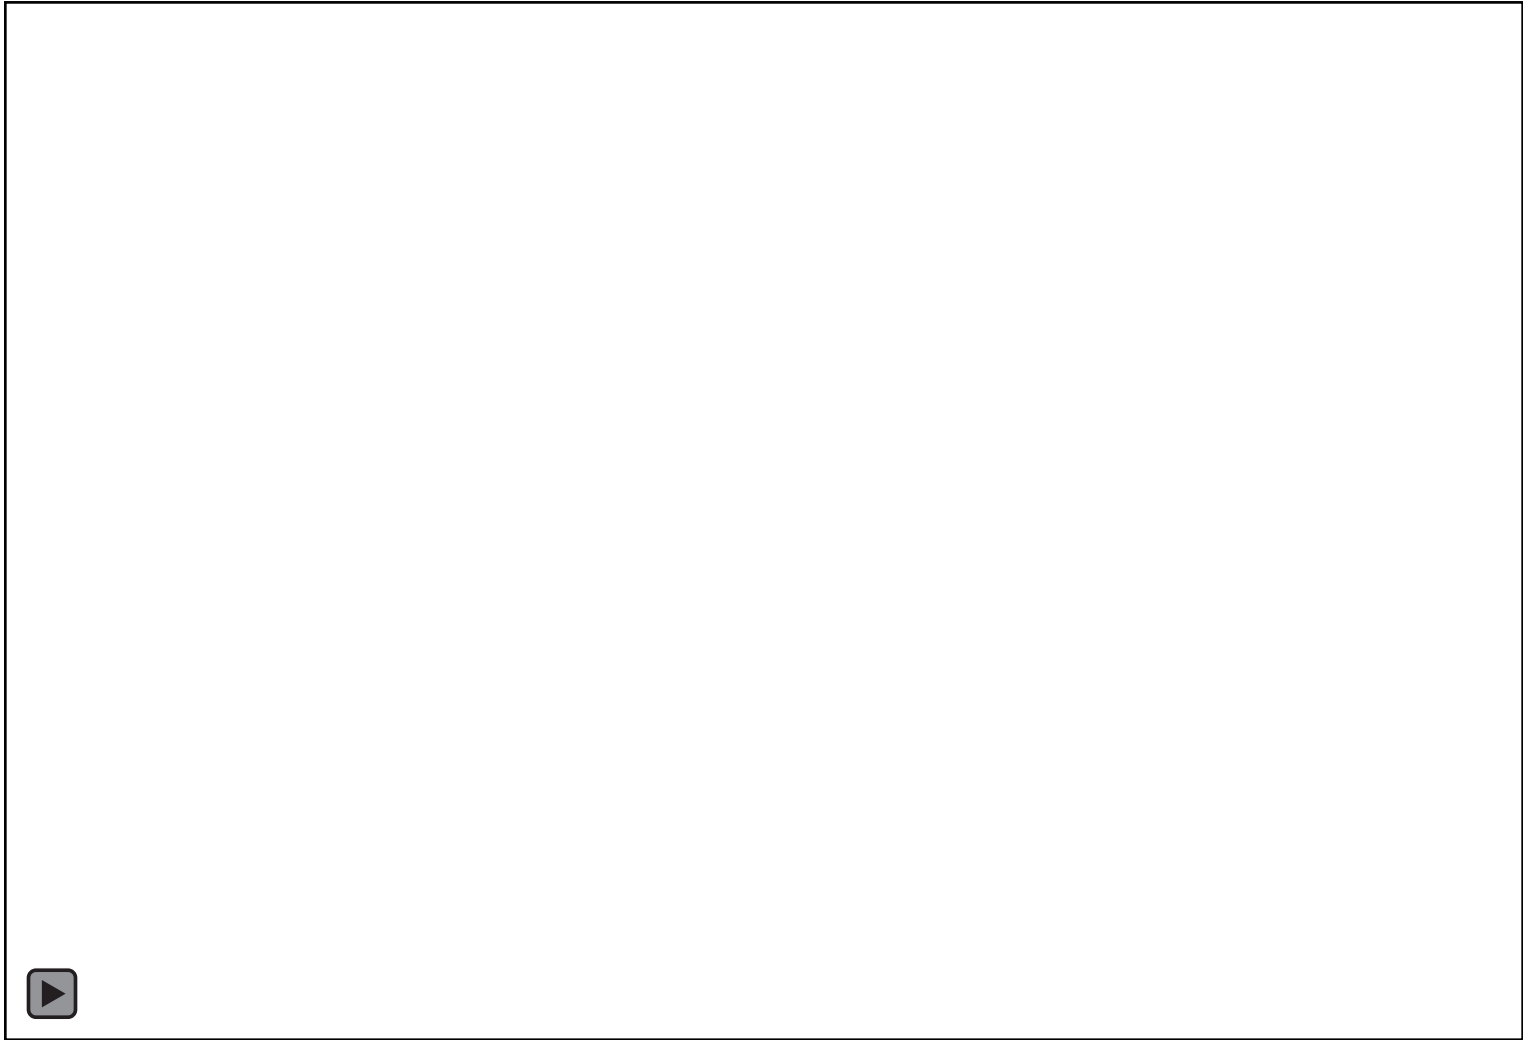

Exercise 2.1

Exercise 2.1

- You are quite happy with the first prototype

- However you would like to learn more about HTML5 and CSS3

https://globis.ethz.ch/files/2017/03/Ex2.1-Video.zip

Exercise 2.1 – Goals

- HTML5 semantic tag in the entire page

- CSS3 animation of menu items

- Popup window for menu items
  - You need to provide content for each item
    - Any related content is fine but PLEASE nothing random like this: *"text test test akdkeo"*

Exercise 2 - Schedule
